To Interested Parties:

On behalf of Appalachian Power Company's (APCo) Glen Lyn Plant, this is a bi-annual update to opportunities for beneficial use of the CCR at this location. Proposals previously received were determined to be non-viable and no additional proposals have been received to evaluate during this reporting period.

Pursuant to the provisions of subsection B of the Code of Virginia §10.1402.04, APCo will continue to pursue encapsulated beneficial uses of CCR stored in the inactive CCR units at the Glen Lyn Plant.
