

**Notice of Intent to Certify Closure
Kammer Site
Boiler Slag Pond
11.4.2024**

The Boiler Slag Pond at the Kammer Site was closed by removal prior to the effective date, November 8, 2024, of the Legacy CCR Rule; however, no groundwater monitoring data currently exists. Pursuant to §257.100(h), AEP will install a groundwater monitoring system compliant with §§257.90 through 257.95 to determine whether there are impacts from the unit. If no statistically significant level above a groundwater protection standard is detected for all Appendix IV constituents in at least the first two consecutive sampling events, consistent with the provisions in 257.95(e), prior to May 8, 2028, AEP will be able to complete the closure certification and document compliance with 257.102(c).
