## 1.0 INTRODUCTION

This Annual CCR Fugitive Dust Control Report (Annual Report) has been prepared pursuant to the air criteria of 40 CFR part 257.80. The Annual Report summarizes activities described in the CCR fugitive dust control plan (Plan) and includes the following components: description of actions taken to control CCR fugitive dust; a record of all citizen complaints; and a summary of any corrective measures taken.

This Annual Report addresses the period from October 1, 2024 to September 30, 2025. The Annual Report is deemed complete when it is placed in the facility's operating record as described in Section 6.0. The initial Annual Report will be completed no later than 14 months after placing the initial CCR fugitive dust control plan in the site's operating record. The deadline for completing subsequent Annual Reports is one year after the date of completing the previous report.

The Annual Report will be placed in the operating record. The Annual Report will also be placed on the Glen Lyn Plant Site's publicly accessible internet website titled "CCR Rule Compliance Data and Information" as described in Section 6.0.

## 2.0 SITE DESCRIPTION AND CONTACT INFORMATION

### 2.1 Site Information

#### Site Information

Name of Facility: Glen Lyn Plant Site

Street: 100 APCO Road

City: Glen Lyn State: VA ZIP Code: 24093

County: Giles

Latitude: 37° 22' 12" N Longitude: 80° 51' 49" W

### 2.2 Contact Information

#### Site Owner & Operator:

Name: Appalachian Power Company

Attention: Gary Spitznogle

Address: 1 Riverside Plaza, 17

City, State, Zip Code: Columbus, OH 43215

#### Site Contact:

Name: Bill Cummings – Plant Operator

Address: Route 1, Box 20

City, State, Zip Code: Glen Lyn, VA 24093

---

Telephone number: 304-348-4116  
Email address: [wwcummings@aep.com](mailto:wwcummings@aep.com)

### **2.3 Activities at the Site**

The Glen Lyn Plant began generating electricity in 1919 and was acquired by Appalachian Power Company in 1925. The first coal-fired generating unit, generating 15 MW of electricity, was put into service in July 1919 and retired in 1954. The second and third units were put into service in September 1920 and February 1924, respectively, and the fourth unit entered service in May 1927. Units 2,3, and 4 generated a combined 65 MW of electricity and were retired in 1971. The fifth and sixth units entered service in May 1944 and May 1957, respectively, with Unit 5 generating 95 MW and Unit 6 generating 240 MW of electricity. The plant operated until April 7, 2015, when Units 5 and 6 were shut down.

The Plant utilized two surface impoundments for managing sluiced ash: the BAP Complex and the AAP Complex. The AAP Complex was closed in place under applicable state regulations, at the time, in 2014. Under a future proposed project, both the BAP Complex and AAP Complex will be closed by removal of all CCR material. The CCR material generated from closure will be placed in a proposed, newly construction CCR Landfill.

## **3.0 FUGITIVE DUST CONTROL SELECTION**

The following fugitive dust control measures were implemented during the period addressed by this Annual Report:

<b>Site Activity</b>	<b>Fugitive Dust Control Measures</b>
Waste Unloading and Placement of Material	There are currently no CCR unloading or placement activities at this site. The plan and applicable fugitive dust control measures will be amended if conditions change.
Wind erosion	Wind erosion control measures for open areas included: inspection of vegetative cover.

## **4.0 CITIZEN COMPLAINT LOG**

### **4.1 Report Contacts**

Complaints made to the company will be received by the Site Owner.

**No complaints were received by the Site Owner during the period addressed by this Annual Report.**

---

#### ***4.2 Follow-up***

All complaints will be entered into a log by the Site Owner with details noted such as the nature of the complaint, date, time, and other relevant details. All complaints will be investigated by the Site Owner: inspection of the dust source, checking site activities at the time of the event, reviewing inspection records, reviewing weather data, and/or contacting the person making the complaint to obtain additional information as required.

**No complaint follow-up was necessary during the period addressed by this Annual Report.**

#### ***4.3 Corrective Action and Documentation***

Corrective actions will be taken as needed and documented. If it is determined that the Plan needs to be amended as a result of the investigation, it will be amended accordingly. If possible, the Site Owner will follow up with the complainant and/or Virginia DEQ to explain the findings of the complaint investigation and corrective actions. Citizen complaints will be recorded in the Annual Report.

**No corrective actions due to complaints were necessary during the period addressed by this Annual Report.**

### **5.0 PLAN ASSESSMENT**

The Plan will be periodically assessed to verify its effectiveness, and if necessary, amended.

**The Site Owner reviewed the inspection records when preparing this Annual Report to assess the effectiveness of the Plan and determined that no additional or modified measures were warranted.**

### **6.0 RECORDKEEPING, NOTIFICATION, and INTERNET REQUIREMENTS**

#### ***6.1 Recordkeeping***

The Annual Report and the Plan, subsequent amendments of the plan (required by 257.80(b)), and documentation of all related information will be maintained in the operating record for 5 years after the site completes post-closure care or closure by removal (CBR) (40 C.F.R. §257.105(g)(1)) for the last CCR unit at the site. Files may be maintained on a computer or storage system accessible by a computer. The Plan (and any subsequent

---

amendments of the plan) will be kept in the site's operating record as they become available. Only the most recent Annual Report and Plan must be maintained on the website. The Annual CCR Fugitive Dust Control Report will be placed in the site's operating record annually, based on the date of the previous report.

## **6.2 Notification**

The Virginia DEQ will be notified within 30 days of when the Plan (or any subsequent amended Plan), or the Annual Report, is placed in the operating record and on the publicly available internet site. This notification will be made before the close of business on the day the notification is required to be completed. "Before the close of business day" means the notification must be postmarked or sent by e-mail by 5:00 PM. If the notification deadline falls on a weekend or federal holiday, the notification is automatically extended to the next business day.

## **6.3 Internet Site Requirements**

The most recent Annual Report will be placed on the site's CCR website titled "CCR Rule Compliance Data and Information" within 30 days of placing it in the operating record.
